Included in kit:
 Top rail, bottom rail, stabilising foot, telescopic pole set, wrap and carry bag/tube
Availability:
 Powdercoated Black
Seamless graphic walls:
 Require BR404 joining bars and EM400 edge to edge magtape

Assembly Instructions

Bannerstand Assembly

Kit includes: top rail, bottom rail, stabilising foot, telescopic poles, wrap and carry bag/tube

Take the stabilising foot and slide into the bottom rail in the direction of the green arrow until it is centrally positioned and locked into place.

Slot the bottom of the telescopic pole into the foot.

Lengthen the pole by pull out each section, pulling out the pole to the desired height and then twist the thumb screw to secure pole into place

Carefully unroll the graphic and secure into position by locating the top rail hole with the telescopic pole.

Repeat Step 3 if necessary to tension the graphic image.

Joining bar Assembly

To attach the horizontal joining bar insert the bar into one the base sections of the uno.

Repeat this with the second base section, align the horizontal joining bars so they are in the centre between both rails

Simply tighten the grub screws on both sides to secure the joining bars in place.
